MEDICATION REVIEW WORKSHEET

Build one complete inventory - prescriptions, over-the-counter medicines, and supplements - and review it with the appropriate clinician or pharmacist. Never stop a medication based on a worksheet or AI response alone.

Person:

Review date:

Complete medication inventory

Medication / supplement	Dose	How often	Prescriber / purpose
Medication / supplement	Dose	How often	Prescriber / purpose
Medication / supplement	Dose	How often	Prescriber / purpose
Medication / supplement	Dose	How often	Prescriber / purpose
Medication / supplement	Dose	How often	Prescriber / purpose
Medication / supplement	Dose	How often	Prescriber / purpose
Medication / supplement	Dose	How often	Prescriber / purpose

QUESTIONS TO CONFIRM

MEDICATION REVIEW WORKSHEET

- ☐ Does each item still have a current purpose?
- ☐ Are there duplicate medicines or overlapping ingredients?
- ☐ Are there timing, food, alcohol, or supplement interactions to discuss?
- ☐ Has kidney function, liver function, weight, age, or another condition changed in a way that matters?
- ☐ For an older adult, are any medicines worth reviewing because age can change risk and benefit?
- ☐ Would a pharmacist-led comprehensive medication review be useful?

Questions for the pharmacist or clinician:

Changes that were actually approved by a clinician / pharmacist:
